BOARD AUTHORIZES SIGNAL LIGHT AT WABASH AVENUE AND MENTONE BOULEVARD

The Board of Supervisors today approved a construction contract that will bring a signal light to the intersection of Wabash Avenue and State Highway 38, also known as Lugonia Street or Mentone Boulevard, in Mentone.

The new signal will improve traffic flow and reduce congestion, improving air quality by reducing the amount of stopped and idling vehicles at this heavily traveled location.

“Our communities are growing and it is essential that infrastructure keep pace,” said Third District Supervisor Dennis Hansberger. “This signal upgrade will alleviate much traffic strain and improve the quality of life for commuters and residents.”

The County Department of Public Works received funding from Federal Congestion Management Air Quality funds, State funds and County local funds. The \$517,589 construction contract was awarded to International Pavement Solutions Inc. The project is scheduled to be completed by early 2007.

For questions regarding the project you can contact the San Bernardino County Department of Public Works at (909) 387-7920.
